

When preparing for the treatment of **Fleas** by Gaths Pest Patrol, be sure to abide by the instructions below **BEFORE** arrival of technician

- Remove any items from the floors (shoes, toys, and books, etc).
- Vacuum all floors that have carpet and under the couches including the cushions of the couch. After vacuuming, throw away the vacuum bag, or rinse vacuum container with hot water and drain the sink and then re-rinse the sink.
- Flip up couch and chair cushions for technician to examine and treat (remove any slipcovers and follow bedding instructions and bag them up).
- Wash any pet bedding and have pet thoroughly groomed before returning home.
- Remove all bedding and linen items from couches and bedrooms (heat in dryer and bag them up)
- **All people and pets must be out for 3 hours after treatment. Children under the age of two must be out for 5 hours.** People with respiratory problems, heart conditions, pregnancy or poor health should vacate the premises for up to 6 hours, as a precaution always check with your health care physician if you are unsure.

AFTER SERVICE:

- Please be sure upon arrival that the carpet is dry before allowing pets and children to walk upon it.
- Vacuum floors once a day for 7 days. By doing so it will ensure that dormant egg remaining in the carpet hatch out sooner, and become exposed to the product sooner.
- **Note:** It is not uncommon to see activity up to 25 days after treatment. If the issue persists after the 25 day mark please contact Gath's Pest Patrol to determine if a follow up service is needed.
